

# Shells and Bells

by Ucaoimhu

This year's Christmas movie excursion will bring us to *Moana*. To count down to this, each Down answer must be altered in one of four ways before entry:

MOAN: Five will be vocalized.

MOA: Five will have unused wings.

MO: Five will be ways of doing things.

M: Five will be multiplied by 1000.

(One altered entry is hyphenated.) The Across answers don't change, but each Across *clue* has an extra letter; delete it before solving. In clue order, these letters will form four words, starting with a seashore denizen, which then undergoes (in some order) three of the above changes. Apply the remaining change to the last word, to get a word that (if you insert / and space) will say how to decorate the empty space on this page.
